

America 2011 – God’s Judgment?

In life on this earth, evil is like a river. Satan is the master of "*Subtle Deception*" and he has a deadly turbulence and a dangerous and powerful *current-of-sin*, hidden just beneath a calm and inviting surface.

Just like a river, the force of evil is always pressing. Also, just like a river, the deeper you enter in – the greater the force of this current moving against you becomes.

The most significant truth that today’s Christian must always be aware of is that the *current* of evil – never ceases to be pressing against us! If we are ever caused to falsely believe that we can relax in our stance against the pressing *current-of-evil* – we can then be more easily swept downstream!

So it is also in every aspect of life. Evil is always pressing against man. With the one exception of Christ’s Victory – every victory we may secure is always only temporary! Evil never quits! The honor and integrity of the *natural-nature* of the Christian, might allow us to believe that once we have attained a victory over *this-or-that* – our opponent will concede – and surrender. Evil never quits – even in a temporary defeat.

A good example of this truism can be found in our political *community-at-large* today. Although those who actually participate in the perverse homosexual lifestyle represent less than 3% of the populace in America – this very small number has, through years of unrelenting pressure – have become successful in actually securing preference over the majority!

Although sodomy had been illegal and rebuked by the "majority" throughout history, today in *America 2011* – homosexuals now have attained "*Special Rights*" (through a *Radical Activist Judiciary*) that endow them with preferred treatment over that of the "majority!" They never did quit. They never relaxed their efforts. They never accepted legitimate legal defeats - and now in "*America 2011*" - "*Wrong is Right!*"

In a Representative Republican form of government "***We the People***" are the government! Essentially, what *is*, or *is not*, "*legal*" – is purely the result of the will of, "*We the People*" according to our Constitution.

I believe that it is important to understand that the condition that is, "*America 2011*," is **not** - the result of ***God’s Judgment*** upon America – it is in fact – the result of an absence of God’s Blessing, on America that comes from a failure of those who should have been faithful to God – not being faithful and **not** doing ***their Duty!***

Simple demographics divulge that approximately 87% of the populace of America professes to be Christian. Considering the aforementioned reality of *how* a "Representative Republican" form of government is administered – the only conclusion is that America is – *wherever it is* – (morally, politically, legally, fiscally, etc.) only because the majority (87% Christian) have purposely decided to be here – *or* – have not done what they **could** have done (via their "majority") - to keep us from being here!

Whichever is true, God is **not** going to bless a people; a nation; according to that kind of disregard for their required "**Duty**" due Him!

The "American 2011" reality is: In America; Abortion *used* to be illegal. Gambling *used* to be illegal. Immoral illicit sexual behavior *used* to be illegal. Drug-use *used* to be illegal. In the not-too-distant past; people were not revered and accepted into celebrity status, if they were openly dishonest, immoral, or participants in illegal activities.

It is troubling to consider that there are indeed many "Believers" who may actually think that "America 2011's" sad condition is the result of God's Judgment. It can never be good when man does not understand God's Will or even more importantly - God's *true* nature and character.

The Great Flood can be recognized as an example of God's Judgment! The complete destruction of the cities of Sodom and Gomorrah are representative of God's Judgment!

The idea that America will one day be judged by God is not invalid. In fact, our Founding Fathers spoke to this question on several occasions: **George Mason** ~ was a life-long opponent of "Slavery" and on that subject which he considered to be a "National Sin" - was caused to express the following quote: "***As nations cannot be rewarded or punished in the next world, so they must be in this. By an inevitable chain of causes and effects, Providence punishes national sins by national calamities.***" - **United States Founding Father, "Father of the Bill of Rights", Constitutional Convention Delegate, George Mason, August 22, 1787**

The paramount importance for the "Believer" in understanding that this condition of "America 2011" is **not** a result of God's Judgment, is that, God's Judgment is always - the conclusion! If indeed then, "America 2011" is **not** the conclusion – then the *faithful* can continue to have hope in the knowledge of the, **Love** and **Grace** and **Peace** of God and realize that in repentance and returning to their Duty to God – the *People of America* and the *American nation* – can be forgiven!
