Urge Arizona Governor Jan Brewer to Stop Illegal Aliens from Receiving Benefits Meant for Arizona Residents

Illegal aliens in Arizona continue to receive public assistance and other benefits at the expense of Arizona tax payers. In fact, public benefits to illegal aliens costs Arizona residents as much as \$2,569,000,000 annually and U.S. tax payers as a whole up to \$85 billion a year!

Giving welfare benefits to illegal aliens only encourages these individuals to stay in Arizona, and even encourages more people to come to Arizona illegally. More must be done to ensure that Arizona benefits only goes to citizens and the Arizona legal residents who deserve them the most.

Please don't delay. Send this critical message to Governor Brewer today, urging her to do more to protect vulnerable Arizona residents from illegal aliens. **This is a completely free service. There is no cost to you.**

Dear Gov. Brewer,

Far too much money is spent on providing illegal aliens with welfare benefits. The law is clear on this matter: illegal aliens are not entitled to federal, state, or local welfare benefits. With this in mind, I ask that you change policies to cut off this flow.

Americans typically need welfare benefits because they've hit a rough patch. Illegal aliens typically take welfare benefits simply because they're there. Does this seem fair to you? Furthermore, there is a finite amount of these benefits -- there's only so much to go around. The more benefits that are illegally taken by illegal aliens, the less benefits there are for Americans in need. I see a problem with this and I hope you do as well.

This issue greatly impacts our state, and is the fair and just thing to do. I hope you will make it happen.

Sincerely,
(Your Name Will Appear Here)
