## **NO HIDDEN AGENDAS**

Dear Friends,

### ***"Freedumb in America Today and the Christian's Duty"***

As I have iterated many, many, times, that nomenclature is not merely a sarcasm intended to represent or identify the "end" of a current, *condition-at-large* here in America – but – rather, I hope that it would provoke Americans, specifically, ***"Christian Americans"*** to learn the True history of America and then, as a matter of understanding their ***Duty to God***, and then, their ***Duty to America*** – become active in their "new" knowledge!

There is a certain measure of *forgiveness* or *tolerance* justifiably extended to those *in* ignorance. However, today, with the advent of ***"Freedumb in America Today, and the Christian's Duty"*** website, as well as the abundance of *all* of the *other* sources of information available to the average American citizen – *ignorance* is no longer an acceptable excuse for a lack of participation and

action from anyone who professes Jesus Christ and American patriotism!

The attached short video content *should be* something that every American already is aware of and possesses an understanding of, purely as a matter of *common knowledge* of the world around them! Sadly – because Americans have decided that a knowledge of history and even of the contemporary affairs within the *world-at-large*, are not worthy of taking time away from their favorite evening sitcom – they may not understand the valuable lessons of other countries past and current mistakes!

There is **NO EXCUSE** - that when Odumba began to openly espouse his true "***Socialist***" objectives for America, cloaked within the weak and thinly-veiled platitudes of, "***Hope and Change***" – that every single American should not have immediately been *able* to recognize it for exactly what it was and respond as one might be expected to respond – when an "***ENEMY***" was about to capture and conquer and destroy ***their*** individual **FREEDOM!**

Now, as I have previously mentioned, "*ignorance*" is no longer an option! No one can really expect for that confessed condition to be *valid* individual reality today.

The "***Liberal-Left Ruling-Class Statist***" true objectives and desired goals for the ultimate **DESTRUCTION** of *America*, and the *American*

*Economy*, and indeed – the “**American Way of Life**” have been made known by them as they have now expressed and are crystal-clear!

There are no longer any excuses left, which will protect the individual *freedom* of the American citizen. There are, **NO HIDDEN AGENDAS** which the *Enemies of God and America* have **NOT** revealed!

There are indeed – “**Consequences**” which have yet to be realized – but there are no more excuses; no more pathways to a rationale which hesitates or procrastinates the implementation of swift and decisive action - not words or meetings or political-compromises!

The only *unknown* presently is: “**What will Americans do?** How will *they* choose to use the measure of individual political-freedom that they still have?

Will the sorry condition of, “**Freedumb,**” in America today be displaced by “**Freedom**” in America in time to save America?

Will the **American Christian’s** love for **God** and the **Rights** of, **Life, Liberty** and freedom to **Pursue Happiness**, be rekindled and reawaken *their* understanding and yearning and passion, to once again, embrace the desire to **do** *their* **Duty to God?**

There is a video to see with this article; without any political-prejudice, presents, in an easy-to-understand recollection of recent-history, – once again – “**WHY**” what the “**Liberal-Left Ruling-Class Statist**” professes that what they want for America – **WILL NOT WORK!**

***What will it be for you – “Freedumb” or “Freedom?”***
