

## Public Education System

### [Freedumb In America Today](#)

Dear Friends,

I am confident that the American, "**Public Education System**" is the most successful tool in Satan's tool box – in turning young minds from God!

I am ignorant of what "good" publications, videos and information might be currently available to speak to this problem – but I believe that you and I should make an effort to find some, qualify it, and begin to aggressively sound the alarm!

I do not believe that one can assume that a quote, "Christian School" is the automatic and unquestionable answer to the education of our children either. Consider if you will, that at the very root of all of America's, *Moral, Civil, Political, Economic, and Spiritual*, shortcomings, is an **IGNORANT** and/or **LAZY** and *APATHETIC*, quote – **Christian citizen!**

*How serious is this issue of public education – and – how heavily-weighted should the Christian parent assess "their" children being in a public school environment for 8 or more hours a day?*

To answer that question, let me ask another: "*How bad do you think it could be to their conscious or subconscious being – if they are sent - by their parents – to an institution where, to even mention "God" is forbidden!*"

"To an institution where, if a child desires to pray before they eat their lunch, to thank God for the blessing of that food – can cause the child to be publicly ridiculed and possibly suspended?"

How can **ANY** parent *truly* believe that this institution could not have an effect (conscious or subconscious) upon that child's view of God?

No matter what the parent might think will offset that kind of indoctrination (50 hours a week!) a couple of hours on Sunday or a mid-week Bible study – or even daily Bible study in the home, is (if only from a *exposure-time* rate) just not an 'equal' or even, fair offset.

One does not have to be a scientific Behaviorist professional in order to realize the real differential-advantage that the Public School has over anything they will attempt to implant in the heart of their child. The evil and foreign propaganda that is fed to them by the Public School System is confirmed as acceptable to the child – by virtue of the fact that **all** of their friends are there with them (are **all** their friends with them in church?) and most certainly it is confirmed by the fact that their **PARENTS** send them there - **EVERY DAY!**

Below is listed a couple of Videos. I have not personally seen the one: "Indoctrination." But I have watched the one: "*Waiting for Superman.*" It is EXCELLENT and can likely be rented at a local video store.

**LINK – [CLICK HERE](#)**

"Waiting for Superman" is primarily focused upon the literal failure in Public Schools at being able to actually educate a child today. If we only consider two aspects of Public Education which could be changed to **IMPROVE** secular public education (de-unionize Public Education Teachers and Administrators – and - **Prohibit** the *time-consuming* priority of teaching of the Evil and ungodly "***Religious Social and Moral Humanist Doctrine***" - presented at a level of importance which is far greater than that of regular secular education (reading, writing and arithmetic!).
