

The Most Dangerous Liberal Organization in America?

Dear Friends,

Here is a note of information enlisting the boycott of AARP. Amac is an alternative to the social political AARP, and offers comparable benefits to its members.

AARP is dangerously out of step with America.

First they supported weakening the 2nd Amendment. Then they were silent on illegal immigration, on the Ground Zero Mosque, on increasing taxes, on gas prices.

Then, against all logic, the AARP drove the passage of ObamaCare - while knowing seniors would pay billions in increased Medicare Supplement and Medicare Advantage premiums as a direct result.

AARP's financial gain "could exceed \$1 billion from the new health care law" – *House Ways and Means "Behind the Veil" investigation finding.*

Now they come out in support of "changes" in Social Security?!?

"...news that the most powerful lobbying force for older Americans had softened its opposition to benefit cuts could not have come at a worse time." – the liberal *Huffington Post*

"The (AARPs)timing is very destructive" - Nancy Altman, co-director of the *Strengthen Social Security Campaign*

"I think they're dead wrong on this issue and I think many of the other senior organizations feel the same way" - *Sen. Bernie Sanders (I-VT)*

Dan Weber, president of Amac says, “it looks like AARP is a giant ship that has lost its rudder- and it is about to hit the rocky shore. The problem is they are taking their members down with them”

In stark contrast to the AARP, Amac recently issued two strong proposals to keep Social Security solvent while putting **more** money in the pockets of older Americans.

AMAC is courting legislators to introduce a bill to ***eliminate the tax on Social Security income*** that one in three people collecting Social Security are now paying.

“We consider it unfair to tax Social Security twice, once when you pay in and again when you start to collect,” Weber says.

Amac Fights For:

- Smaller government
- The 2nd Amendment
- Freedom of Religion – as America’s Founders intended
- The old-fashioned values that made America the Greatest Country on earth.
